Information for Contributors

All correspondence relating to publication in the journal should be addressed to Prof. W. J. B. Houston, Editor, European Journal of Orthodontics, United Medical and Dental Schools of Guy's and St. Thomas's Hospitals, Floor 22, Guy's Tower, London Bridge SE1 9RT. Papers are accepted on the understanding that they have not been and will not be published elsewhere, and that they are subject to editorial revision. All papers submitted for publication in the European Journal of Orthodontics are subject to assessment by independent referees.

Manuscripts Authors should submit the original manuscript and one additional copy. The text should be typewritten, on one side of the paper only; the lines must be double spaced and there should be wide margins (about 5 cm). The title page should bear the names of all authors, followed by a brief address. The full ‘Address for correspondence’ should be reserved and typed at the end of the paper. Also on the title page, a short running title is required when the full title of the paper exceeds 40 letters. The paper should begin with a Summary (on a separate page) of not more than 250 words, followed by an Introduction, Material and methods section, Results section, Discussion section, and Acknowledgement and a Reference section.

References The accuracy of references is the responsibility of the author. References in the text should be quoted by the author’s name(s) and the year of publication. In the case of two authors both names should be stated. If there are more than two authors only the first author plus et al., is used.

Reference list All references should be in alphabetical order of author’s names in double or triple spacing. References in the text should be quoted by the author’s name(s) and the year of publication. In the case of two authors both names should be stated. If there are more than two authors only the first author plus et al., is used.

References to books are given as follows:

Illustrations Illustrations should be kept to a reasonable number. Two copies of each illustration should be submitted but one of these may be a photocopy. Photographs should be sharp, black and white, glossy prints and should be unmounted. Each illustration must be clearly marked on the reverse side lightly in pencil with the figure number and the author’s name, and the top of the figure should be indicated with an arrow. Scale bars should be used to indicate the magnification of photomicrographs. Colour plates can be accepted at the editor’s discretion. Authors are advised to consult the editor at an early stage if colour illustrations are proposed. Line drawings should be made in black ink on Bristol Board, tracing paper, or graph paper with faint blue ruling. They should not be more than twice the size desired in the final reproduction.

The legends for illustrations should be typed on a separate sheet.

Tables Tables should be typed on separate sheets of paper and should not be ruled. Headings must be typed at the top of tables. All tables and illustrations should be referred to in the text.

Abbreviations and units All measurements should be expressed in S.I. units except blood pressure which will continue to be expressed in mm Hg.

Discussion of Papers Questions or criticisms concerning recently published papers may be sent to the Editor, who will refer them to the authors. The readers’ comments and authors’ replies may subsequently be published together. There is no other correspondence section in the Journal.

Proofs Authors will receive proofs of their papers for correction. No major changes are permissible at this stage and alterations should be restricted to correction of typographical errors.

Offprints An offprint order form will be despatched with each proof, and if offprints are required this should be completed and returned to Oxford University Press by the deadline stated on the form.
ROYAL COLLEGE OF SURGEONS OF EDINBURGH
DENTAL WORKSHOP IN ORTHODONTICS
The treatment of severe Class II malocclusion
Friday 22 March 1991

09.10
Introduction

Dr JF Gould, Dean,
Faculty of Dental Surgery, RCSEd

Moderator: Mr DJ Binnie

A personal view of functional appliance theory
Dr Ulrich Teuscher, Zurich
The response to function regulator treatment
Mr Sydney Haynes, Edinburgh
Cephalometric analysis of functional treatment
Dr Ulrich Teuscher, Zurich
The response of the temporomandibular joint to
functional displacement
Dr MC Meikle, London

Moderator: Mr Sydney Haynes

Orthodontic management of surgical class II cases
Mr Raymond Edler, London
Surgical treatment for class II malocclusions
Mr JI Cawood, Chester
Orthopaedic versus Orthodontic response to
functional appliance therapy in Class II cases:
Professor WJB Houston, London
A review of the evidence

This programme is a revision of that which appeared in British Journal of Orthodontics Vol 12, No 4, November '90.

For further information apply to: The Clerk to the College,
The Royal College of Surgeons of Edinburgh, Nicolson Street, Edinburgh EH8 9DW

DENTOFACIAL DEFORMITIES
Integrated Orthodontic - Surgical Correction
May 23 - 25, 1991

A three-day course given by Dr BN Epker
and Dr LC Fish at the Stakis Earl Grey Hotel,
Dundee.

The course fee is £300 incl VAT and includes
lunch, mid-seminar refreshment and a
Ceilidh on the evening of 24 May.

A course for Orthodontists, Maxillo-facial
Surgeons and Dental Technicians. It will
provide a unique opportunity for the whole
team to learn together and evaluate their
current practice, free from the pressure of
work.

Further particulars from:

Mr JD Clark, Consultant Orthodontist
Dundee Dental Hospital, Park Place
DUNDEE DD1 4HR
INTERNATIONAL CONFERENCE ON THE BIOLOGY OF TOOTH MOVEMENT AND CRANIOFACIAL ADAPTATION

8–11 May 1991
College of Dentistry, The Ohio State University

Participants in this conference will evaluate existing research on the biological short-term aspects of tooth movement, and the long-term adaptive changes in paradental and other orofacial tissues. Areas of discussion will include:

- Cellular and molecular aspects of connective tissue remodelling
- Bone formation and resorption: regulating factors and mechanisms
- Effects of mechanical stress on connective tissues
- Response of paradental cells to mechanical and inflammatory challenges
- Cellular and molecular aspects of cartilage metabolism
- Neurologic control of craniofacial function
- Neuromuscular effects on craniofacial morphology and adaptation

Each of the 72 speakers will present a 15–20-minute paper, followed by a 5-minute discussion. Each of the sessions will be concluded by a summary presentation. Dr Zeev Davidovitch will serve as conference chairperson; the advisory committee consists of Drs Keith Alley, Arnold Caplan, David Carlson, Gregory King, and Sandy Marks, Jr.

The conference is sponsored by the National Institute of Dental Research and by the College of Dentistry at The Ohio State University. For further information, please write: Tooth Movement/Adaptation Conference, The Ohio State University, P.O. Box 2859, Columbus, Ohio 43216–2859, USA, or call the Department of Conferences and Institutes at (614) 292–8571.

START: 150 CASES PER YEAR?

NEW HORIZONS IN ORTHODONTICS
COURSES FOR 1991
VENUE: HEATHROW PENTA HOTEL

THE ROLE OF FUNCTIONAL APPLIANCES - February 23, 24:
Dental Orthopaedics with the Twin Block Technique

EXTENDING ORTHODONTIC HORIZONS - June 1, 2:
"Interceptive Treatment and Arch Development": The excellent Wilson fixed/removable appliance system

DIAGNOSIS AND TREATMENT PLANNING - September 7, 8:
Define and achieve treatment objectives with a simple, logical method of treatment planning.

BONDED FIXED APPLIANCES - November 30, December 1:
Finish cases to the highest standard in a simpler approach to bonded fixed appliances

Cost of each course: £275.00 to include lunches and refreshments.

Further details: Sheila Clark, Lundin Lea, Leven Road, Lundin Links, Fife, Scotland, KY8 6AJ.

Forthcoming Events

10th–23rd March 1991, Davos, Switzerland

18th and 19th April 1991, Leicester, England
Craniofacial Society of Great Britain Scientific Meeting. Guest speakers Richard E. Ellis and Professor Robert J. Shprintzen. For information contact: Mrs M. N. Turner, President, Speech Therapy Department, Yeoman House, 5A Yeoman Street, Leicester LE1 1US.

8th–11th May 1991, Columbus, Ohio, U.S.A.
International Conference on the Biology of Tooth movement and Craniofacial Adaptation. Chairman: Dr Z. Davidovitch, 72 speakers of papers of 15–20 minutes, with 5 minutes discussion. For information contact: Tooth Movement/Adaptation Conference, Ohio State University, P.O. Box 2859, Columbus, Ohio 43216-2859, U.S.A.

20th–26th May 1991, Aachen, Federal German Republic
Annual Scientific Meeting of 'Deutsche Gellerschaft für Kieferorthopädie'. Meeting President: Professor Dr Peter Diedrich. For information contact: Professor Dr Peter Diedrich, Abtlg. für Kieferorthopädie der Medizinischen Fakultät der RWTH Aachen, Pauwelsstraße, D-5100 Aachen.

29th–31st May 1991, Beijing, China
Beijing International Conference on Orthodontics and Surgical Orthodontics. For information contact: Mr Zhao Zeng-Iu, Secretariat of OSO'91, School of Stomatology, Beijing Medical University, Weigonggeun, Haidian, Beijing 100081, China.

10th–14th June 1991, Las Palmas de Gran Canaria
37th Congress of 'Sociedad Española de Ortodoncia'. President: Dr Humberto Bellini. For information contact: Dr Bellini, Triana 88, 35002 Las Palmas de Gran Canaria, Spain.

Meeting of the Orthodontic Section of the Hungarian Dental Association. President: Gizella Rehák. 'Preliminary treatment as an introduction to fixed appliance therapy.' For information contact: Multitours, 1052 Budapest, Váci u. 16.

Courses

8th–10th April 1991, Belfast, Northern Ireland
'The Design Construction and Use of Removable Orthodontic Appliances.' Course given by C. P. Adams, J. R. E. Mills, W. J. S. Kerr and H. Mercer. Details from Professor A. Richardson, Orthodontic Department, School of Dentistry, Royal Victoria Hospital, Belfast BT12 6BP.

30th April–2nd May 1991, Guy's Hospital London
'Bio-progressing into the 1990s.' Course given by David Barnett and Glynn Wreakes. Details from Miss Ann Taylor, Course Organiser, Floor 22, Guy's Tower, Guy's Hospital, London Bridge, London SE1 9RT.

23rd–25th May 1991, Dundee, Scotland
'Dento-facial deformities: integrated orthodontic-surgical correction.' Course given by Bruce N. Epker and Leward E. Fish. Details from: Mr J. D. Clark, Dundee General Hospitals Unit, Dundee Dental Hospital, Park Place, Dundee DD1 4HR.
