Activator-headgear combination
The initial effects of the treatment of Class II, division 1 malocclusions with the van Beek activator compared with the effects of an ... 389

Adolescent female craniofacial morphology
... associated with advanced bilateral TMJ disc displacement 701

Adolescents
Assessment of dental and facial aesthetics in ... 399
The early reparative process of orthodontically induced root resorption in ... 727

Advanced bilateral TMJ disc displacement
Adolescent female craniofacial morphology associated with ... 701

Alveolar bone grafting
... 115
Bilateral ... 299

Angiogenic growth factors
Enhanced angiogenesis induced by diffusible ... released from human dental pulp explants of orthodontically moved teeth 357

Apical root resorption
... during orthodontic treatment of patients with multiple aplasia 427
Early radiographic diagnosis of ... during orthodontic treatment 57

Arch perimeter
Comparison of dental arch and ... changes between bonded rapid and slow maxillary expansion procedures 255

Articular cartilage cell
Effect of Cytochalasin D on ... phenotype and shape in long-term organ culture 491

Atomic force microscopy
Surface roughness of orthodontic wires via ... 79

Autotransplantation
Eruption of premolars subsequent to ... 45

Bass appliance
A prospective evaluation of ... 501
A prospective evaluation of ... 663
Dental changes in the mandible during initial ... therapy 17

Begg technique
Third molar impaction in extraction cases treated with the ... 263

Bilateral alveolar bone grafting
... 299

Bilateral TMJ disc displacement
Adolescent female craniofacial morphology associated with advanced ... 701

Bionator appliance
A prospective evaluation of ... 501, 663

Bonding
... to molars 195

Bone grafting
Bilateral alveolar ... 299

Bone scintigraphy
... of human temporomandibular joints during Herbst treatment 369

Bracket bonding
Use of glass ionomers for ... 201

Brackets
Frictional forces related to self-ligating ... 283

Buccal mucosa
Long-term effects of orthodontic magnets on human ... 211

Cephalometric analysis
... of changes in occlusal relationship 449

Cephalometric changes
... following maxillary expansion and protraction 237

Cephalometric landmarks
Reproducibility of ... on conventional film, hardcopy, and monitor-displayed images obtained by the storage phosphor technique 331

Cephalometric roentgenographic study
Temporomandibular joint growth adaptation in Herbst treatment: a ... 375

Ceramic brackets
Shear bond strengths of ... bonded with different light-cured glass ionomer cements 177

Class I malocclusions
Treatment changes in ... using the en masse removable appliance 5

Class II, division 1 malocclusions
The initial effects of the treatment of ... with the van Beek activator compared with the effects of the Herren activator and an activator-headgear combination 389

Class II malocclusions
The use of the Jasper Jumper for the correction of ... in the young permanent dentition 271
Treatment changes in ... using the en masse removable appliance 5

Class III malocclusions
A retrospective comparison of functional appliance treatment of ... in the deciduous and mixed dentitions 309

Class III patients
Soft and hard tissue changes in ... treated by bimaxillary surgery 25

Cleft lip and palate
Psychological aspects of ... 407

Collagen content
Changes in ... in the mandibular condylar cartilage of the rabbit caused by an altered relationship between the condyle and glenoid fossa 435

Condyle
Changes in proteoglycan and collagen content in the mandibular condylar cartilage of the rabbit caused by an altered relationship between the ... and glenoid fossa 435
Conventional film images
Reproducibility of cephalometric landmarks on … obtained by the storage phosphor technique 331

Craniofacial growth
Short stature of prenatal origin: … 417

Craniofacial morphology
Adolescent female … associated with advanced bilateral TMJ disc displacement 701

Craniofacial skeleton
Biomechanical effects of rapid maxillary expansion on the …, studied by the finite element method 347

Cytochalasin D
Effect of … on articular cartilage cell phenotype and shape in long-term organ culture 491

Deciduous dentition
A retrospective comparison of functional appliance treatment of Class III malocclusions in the … 309

Dental aesthetics
Assessment of … in adolescents 399

Dental arch
Comparison of … and arch perimeter changes between bonded rapid and slow maxillary expansion procedures 255

Dental changes
… in the mandible during initial Bass appliance therapy 17

Dental maturation
… in subjects with extreme vertical facial types 73

Dental pulp explants
Enhanced angiogenesis induced by diffusible angiogenic growth factors released from human dental pulp explants of orthodontically moved teeth 357

Denture Frame Analysis
… 579

Diagnostic tool
The Denture Frame Analysis: an additional … 579

Diffusible angiogenic growth factors
Enhanced angiogenesis induced by … released from human dental pulp explants of orthodontically moved teeth 357

DigiGraph™ Workstation
Space analysis: a comparison between … and the digital caliper 653

Digital caliper
Space analysis: a comparison between sonic digitization and the … 653

Edgewise brackets
A comparative in vitro study of the frictional characteristics of two types of self-ligating brackets and two types of pre-adjusted … tied with elastomeric ligatures 589

Elastomeric chain
The effect of environmental factors on … 169

Elastomeric ligatures
A comparative in vitro study of the frictional characteristics of two types of self-ligating brackets and two types of pre-adjusted edgewise brackets tied with … 589

En masse removable appliance
Treatment changes in Class I and mild Class II malocclusions using the … 5

Enhanced angiogenesis
… induced by diffusible angiogenic growth factors released from human dental pulp explants of orthodontically moved teeth 357

Environmental factors
The effect of … on elastomeric chain and nickel titanium coil springs 169

Epidemiological survey
An … using the Treatment Priority Index 189

Eruption
… of premolars subsequent to autotransplantation 45

Eti time
Bonding to molars—the effect of … 195

Expansion
Cephalometric and occlusal changes following maxillary … 237

Extraction
Therapeutic changes in … versus non-extraction orthodontic treatment 225

Extraction cases
Third molar impaction in … treated with the Begg technique 263

Extensive vertical facial types
Dental maturation in subjects with … 73

Facial aesthetics
Assessment of … in adolescents 399

Facial depth variables
A proportional analysis of some … in 10 to 16 year old children 35

Facial development
The importance of the maxillary sinuses in … 1

Facial height variables
A proportional analysis of some … in 10 to 16 year old children 35

Facial types
Dental maturation in subjects with extreme vertical … 73

Female craniofacial morphology
Adolescent … associated with advanced bilateral TMJ disc displacement 701

Finite element method
Biomechanical effects of rapid maxillary expansion on the craniofacial skeleton, studied by the … 347

Fixed appliance orthodontic treatment
Functional occlusion after … 561

Fixed appliance treatment planning
The validation of an orthodontic expert system rule-base for … 569

Fluor Protector®
White spot formation under orthodontic bands cemented with glass ionomer with or without … 219

Fluoroscopy
The role of lateral cephalometric radiography and … in assessing mandibular advancement in sleep-related disorders 121

Frictional characteristics
A comparative in vitro study of the … of two types of self-ligating brackets and two types of pre-adjusted edgewise brackets tied with elastomeric ligatures 589

Frictional forces
… related to self-ligating brackets 283

Frontal head posture
Reference structures for assessment of … 694

Functional appliance treatment
A retrospective comparison of … of Class III malocclusions in the deciduous and mixed dentitions 309

Functional appliances
A comparative assessment of acceptance of different types of … 517
Functional occlusal relationships … in a group of post-orthodontic patients 103

Functional occlusion … after fixed appliance orthodontic treatment 561

Gingivitis The relationship between irregularity of the incisor teeth, plaque, and … 65

Glass ionomer cements Shear bond strengths of ceramic brackets bonded with different light-cured … 177

Glass ionomers Use of … for bracket bonding 201
White spot formation under orthodontic bands cemented with … with or without Fluor Protector® 219

Glenoid fossa Changes in proteoglycan and collagen content in the mandibular condylar cartilage of the rabbit caused by an altered relationship between the condyle and … 435

Growth adaptation Temporomandibular joint … in Herbst treatment 375

Hard tissue … changes in Class III patients treated by bimaxillary surgery 25

Hard tissues A prospective evaluation of Bass, Bionator and Twin Block appliances. Part I—the … 501

Hardcopy images Reproducibility of cephalometric landmarks on … obtained by the storage phosphor technique 331

Head posture … and malocclusions 685
Reference structures for assessment of frontal … 694

Herbst treatment Bone scintigraphy of human temporomandibular joints during … 369
Temporomandibular joint growth adaptation in … 375

Herren activator The initial effects of the treatment of Class II, division I malocclusions with the van Beek activator compared with the effects of the … 389

Human foetus Morphological aspects of the mid-palatal suture in … 93

Incisor inclination Assessing … 721

Incisor teeth The relationship between irregularity of the …, plaque, and gingivitis 65
Irregularity of the incisor teeth The relationship between …, plaque, and gingivitis 65

Jasper Jumper The use of the … for the correction of Class II malocclusion in the young permanent dentition 271

Laser specular reflectance Surface roughness of orthodontic wires via … 79

Lateral cephalometric radiography The role of … and fluoroscopy in assessing mandibular advancement in sleep-related disorders 121
Light-cured glass ionomer cements Shear bond strengths of ceramic brackets bonded with different … 177

Lip bumper therapy No effect of … on the pressure from the lower lip on the lower incisors 525

Lip levator musculature An ultrasound investigation of the … 713
Lower arch crowding … in the third decade 597
Lower incisors No effect of lip bumper therapy on the pressure from the lower lip on the … 525
Lower lip No effect of lip bumper therapy on the pressure from the … on the lower incisors 525
Lumbosacral myelomeningocele The sella turcica in children with … 443

Masseter muscle thickness Maxillofacial morphology and … in adults 535

Maxillary expansion Biomechanical effects of rapid … on the craniofacial skeleton, studied by the finite element method 347
Maxillary expansion and protraction Cephalometric and occlusal changes following … 237
Maxillary expansion procedures Comparison of dental arch and arch perimeter changes between bonded rapid and slow … 255

Maxillary incisors Apical root resorption during orthodontic treatment of patients with multiple aplasia: a study of … 427
Early radiographic diagnosis of apical root resorption during orthodontic treatment: a study of … 57

Maxillary sinuses The importance of the … in facial development 1

Maxillofacial morphology … and masseter muscle thickness in adults 535
Mid-palatal suture Morphological aspects of the … in the human foetus 93
Mixed dentition
A retrospective comparison of functional appliance treatment of Class III malocclusions in the 309

Molars
Bonding to … 195

Monitor-displayed images
Reproducibility of cephalometric landmarks on … obtained by the storage phosphor technique 331

Morphological aspects
… of the mid-palatal suture in the human foetus 93

Multiple aplasia
Apical root resorption during orthodontic treatment of patients with … 427

Natural head posture
