Adhesion of mutans streptococci to self-ligating ceramic brackets: in vivo quantitative analysis with real-time polymerase chain reaction
Woo-Sun Jung, IL-Hyung Yang, Won Hee Lim, Seung-Hak Baek, Tae-Woo Kim and Sug-Joon Ahn .......................................................... 565

Predictive value of masseter muscle thickness and bite force on Class II functional appliance treatment: a prospective controlled study
Gregory S. Antonarakis and Stavros Kiliaridis ........................................... 570

Histomorphological and torque removal comparison of 6 mm orthodontic miniscrews with and without surface treatment in New Zealand rabbits

Non-invasive removal of sandblasted and acid-etched titanium palatal implants, a retrospective study
Mirjam Kuhn, Peter Göllner, Marc Schätzle and Michael P. Hänggi.................. 584

Three dimensional anatomical exploration of the anterior hard palate at the level of the third ruga for the placement of mini-implants – a cone-beam CT study
Jan Hourfar, Georgios Kanavakis, Dirk Bister, Marc Schätzle, Layla Awad, Manuel Nienkemper, Christine Goldbecher and Björn Ludwig ......................... 589

Evaluation of alveolar bone dimensions in unilateral palatally impacted canine: a cone-beam computed tomographic analyses
Aditya Tadinada, Mina Mahdian, Meenakshi Vishwanath, Veerasathpurush Allareddy, Madhur Upadhyay and Sumit Yadav ......................... 596

The evidence from systematic reviews and meta-analyses published in orthodontic literature. Where do we stand?
Despina Koletsi, Padhraig S. Fleming, Theodore Eliades and Nikolaos Pandis ........ 603

Impact of orthodontic appliances on the quality of craniofacial anatomical magnetic resonance imaging and real-time speech imaging
Marzena Wylezinska, Marie Pinkstone, Norman Hay, Andrew D. Scott, Malcolm J. Birch and Marc E. Miquel .......................................................... 610

continued overleaf
Mandibular advancement appliances for the treatment of paediatric obstructive sleep apnea: a systematic review
Natasha Nazarali, Mostafa Altalibi, Samir Nazarali, Michael P. Major, Carlos Flores-Mir and Paul W. Major .......................................................... 618

Biomechanical and histomorphometric properties of four different mini-implant surfaces
Sumit Yadav, Madhur Upadhyay and Wilbur Eugene Roberts ........................................ 627

Regional facial asymmetries in unilateral orofacial clefts
Mette A. Kuijpers, Dries J. Desmedt, Rania M. Nada, Stefaan J. Bergé, Piotr S. Fudalej and Thomas J. Maal ................................................................. 636

Impact of self-esteem and personality traits on the association between orthodontic treatment need and oral health-related quality of life in adults seeking orthodontic treatment
Maïté Clijmans, Jurgen Lemiere, Steffen Fieuws and Guy Willems .................................. 643

Effects of rapid maxillary expansion on the midpalatal suture: a systematic review
ShiYao Liu, TianMin Xu and Wei Zou ................................................................................ 651

Do the NiTi low and constant force levels remain stable in vivo?
Michał Sarul, Beata Kawala, Maciej Kawala and Joanna Antoszewska-Smith .................. 656

Effects of temperature changes and stress loading on the mechanical and shape memory properties of thermoplastic materials with different glass transition behaviours and crystal structures
Masahiro Iijima, Naohisa Kohda, Kyotaro Kawaguchi, Takeshi Muguruma, Mitsuru Ohta, Atsuko Naganishi, Takashi Murakami and Itaru Mizoguchi ........................... 665

Book Reviews ...................................................................................................................... 671
